DETAILED ACTION

Examiner's Comments

1. This action is in response to applicant's amendment received 1/25/2005. Applicant has amended the independent claims 1, 14 and 27 thereby placing the application in condition for allowance.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steven Arterberry at 206-957-2483 on Friday 3/18/2005.

The application has been amended as follows:

The title of the invention has been changed, the words "AND METHODS" have been deleted;

Claims 39-76 have been cancelled.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to anticipate or obviate in combination an apparatus for performing a manufacturing

operation on a workpiece comprising a track assembly adapted to be attached to the workpiece, wherein the track assembly includes a pair of laterally opposed and longitudinally extending rails configured to flexibly conform to a contoured portion of the workpiece, a carriage assembly moveably coupled to the track assembly and a position sensor coupled to the carriage assembly and including a sensor element adapted to be positioned relative to the workpiece and adapted to detect at least one edge of an index feature on the workpiece from a distance away from the index feature.

Examiner notes that such terminology, "adapted to", as found in claims 1, 14 and 27, is construed to be the equivalent of an element performing the function it's "adapted" to do and not merely capable of performing the function, e.g. the sensor element of claim 1 detects an edge of an index feature and is not just capable of doing so. Claims 1-38 are now novel over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
